

Kindly note: You are requested to submit your Holidays homework on 26 June 2023 between 8:00 am -1:00 pm to your respective CTs in school.

Class 1. Session 2023 - 24
Theme: SUSTAINABLE DEVELOPMENT GOALS

Hindi

1. हिन्दी सीखने का पहला कदम, स्वरों और उनकी मात्रा सीखना। सभी मात्राओं के फ्लैश कार्ड चित्र बनाकर या चिपकाकर बनाए।
अ, आ, इ की मात्रा (रोल नो. 1 से 7)
ई, उ, ऊ की मात्रा (रोल नो. 8 से 14)
ए, ऐ, औ की मात्रा (रोल नो. 15 से 21)
औ, अं, अः, ऋ की मात्रा (रोल नो. 22 से 30)

2. भूमिका: जब तक जल सुरक्षित है, तब तक कल सुरक्षित है। जल ही जीवन है, हमेशा हम सुनते हैं, लेकिन मानते कितना है? क्या हम जल की रक्षा जीवन की तरह करते हैं? क्या हम उसे भी उतनी तबबजो देते हैं, जितना किसी इन्सान की जिंदगी को? इन सवाल के जबाब सबके पास ना में ही होंगे। बच्चों, हमारे लिए जल बहुत महत्वपूर्ण है। हम सभी जानते हैं कि बिना जल के हम नहीं रह सकते। लेकिन दिन-प्रतिदिन हम जल का अधिक इस्तेमाल करते हैं जिससे उसका भंडार कम हो जाता है। इसलिए, हमें जल की बचत करनी चाहिए।

परियोजना कार्य:

- जल हमारे जीवन का एक अहम हिस्सा है जो हमें सभी उपयोगों में मदद करता है। लेकिन आज के समय में, जल की कमी की समस्या हमारे सामने है। हमें इस समस्या का समाधान ढूंढना चाहिए ताकि हमारे भविष्य के लिए पर्यावरण संरक्षण के साथ-साथ जल संरक्षण भी हो सके।

3. शुद्धलेखन का अभ्यास:

अच्छी हाथलेखन के द्वारा बच्चे शब्दों को सही ढंग से लिख सकते हैं जिससे उनकी पढ़ाई में मदद मिलती है। अच्छी हाथलेखन भी उनके व्यक्तित्व और आत्मविश्वास को बढ़ाती है क्योंकि यह उनके लिखने के कौशल को सुधारती है।

सम तिथियों पर लेखन अभ्यास का एक पृष्ठ लिकिए। (उदाहरण

18th मई

, 20th मई

, 22 मई..)

4. ख्वाबों की उड़ान

चित्र पुस्तक बनाना बच्चों को लेखन, व्याकरण, और संवाद के कौशलों को सीखने में मदद करता है। इसके अलावा, यह बच्चों को चित्रों के माध्यम से कहानियों को समझने में मदद करता है और उनकी क्रिएटिविटी और अभिव्यक्ति को बढ़ाता है। इस प्रक्रिया से बच्चों के अंदर अपने विचारों को साझा करने और अधिक स्पष्टता से सोचने की क्षमता भी विकसित होती है।

विषय का चयन करें: पहले, एक विषय का चयन करें जिसे आप परिचय देना चाहते हैं।

चित्रों का चयन करें: अगला चरण है, विषय के लिए चित्रों का चयन करना। इन चित्रों को चुनते समय विषय से संबंधित होने चाहिए।

विषय को समझाएं: अपनी पिक्चर बुक में प्रयोग करने के लिए अपने विषय को छोटी कहानी बनाकर समझाएं।

चित्र लगाएं: अब, अपनी कहानी के अनुसार अपनी पिक्चर बुक में चित्र लगाएं। आप इन चित्रों को अपने द्वारा खींचे गए हो सकते हैं या फिर इंटरनेट से भी खोज कर सकते हैं।

स्टोरी लिखें: अगला चरण है, अपनी पिक्चर बुक के लिए एक स्टोरी लिखना। इसमें आप अपनी कहानी को विस्तार से बताने की कोशिश करें।

लेख लिखें: अपनी स्टोरी के साथ-साथ अपनी पिक्चर बुक में लेख लिखें

English

1. My SnapShot Cards or My memory mates or My rapid recall cards

Flashcards are popular learning tool that has been used to help learners of all ages to memorize and retain information. The importance of flashcards lies in their effectiveness in helping learners to remember and recall information quickly and easily. They support active, engaging and effective learning. They are helpful in reinforce memory. They are flexible, portable and time saving.

Students will make flashcards of the following:

- a) Naming Words (Roll No 1-6)
- b) Describing Words (Roll No 7-12)
- c) Action Words (Roll No 13-18)
- d) Position Words (Roll No. 19-24)
- e) Opposite Words (Roll No. 25-30)

Instructions :i) Students can either draw or paste pictures on half A4 size sheet

ii) The picture pasted or drawn must be clear and visible.

Purpose - Learner will show the flash cards and talk about it.

2. Walk the Talk:

Take a dice. Roll it and speak on the topics listed below as per the number obtained on the dice.

1- My dream house.

2- How I remain fit as fiddle?

3- Healthy food is important

4- Place I visited this vacation.

5- My favourite gadget.

6- Why green vegetable and fruits are an essential component of my platter?

Make a video and upload it on google classroom.

3. Gateway to good handwriting:

Having good handwriting skill is important for better communication and self expression. It gives clarity and legibility in work. Developing good handwriting skills can be a form of personal development. It can help in building confidence and self- esteem and can be a satisfying way to express creativity.

Do pages- 11 to 20 in Cursive Writing Book

4. Read the following stories and create the character from the following stories.

- The true story of the three little pigs. By Jon Scieszka (Roll No 1-6)
- Ramona the pest. By Beverly Clearly (Roll No 7-12)
- The book Hog . By Greg Pizzoli.(Roll No 13-18)
- Whose lovely child can you be? By Shobha Vishvanath (Roll No. 19-24)
- Water Boy . By David Mcphail. (Roll No. 25-30)

5. Lexical Adventure - Explore the grammar with unseen passage.

The sun was shining brightly in the sky. It was a perfect day for playing outside. Lily and her friends decided to have a picnic in the park. They brought sandwiches, juice boxes, and some fruit to share. They spread out a blanket under a big tree and started eating.

After they finished their snacks, they played some games. Lily's favorite game was hide-and-seek. They played until they were tired and sweaty, then they lay down on the blanket and looked up at the clouds. They tried to guess what shapes they saw in the fluffy white clouds.

Questions:

1. What was the weather like?
2. What did Lily and her friends bring for their picnic?
3. Where did they spread out the blanket?
4. What game did Lily like to play?
5. What did they do after playing games?

6. Word Gems

Learn and write the following vocabulary words in 3 in 1, to improve your spell bee skills of vocabulary words.

1. apple	1. orange	1. elephant	1. tomato
2. ball	2. pig	2. frog	2. unicorn
3. cat	3. queen	3. goat	3. volcano
4. dog	4. rabbit	4. horse	4. worm
5. egg	5. sun	5. igloo	5. yogurt
6. fish	6. turtle	6. juice	6. zoo
7. girl	7. umbrella	7. kangaroo	7. airplane
8. hat	8. huge	8. lemon	8. boat
9. ice cream	9. there	9. mouse	9. car
10. jelly	10. because	10. nest	10. dinosaur
11. kite	11. therefore	11. octopus	11. earth
12. lion	12. note	12. panda	12. flower
13. monkey	13. ant	13. quail	13. grass
14. nose	14. bear	14. robot	14. house
15. orange	15. cow	15. snake	15. island

7 The Morning Chronicle or The News Navigator

Developing reading habit at a young age can have many benefits for children. It will help in developing their language, by exposing them to new vocabulary and sentence structure. Newspaper can be window into the world for the students, they will learn about the current event and the world around them. Students can improve their reading comprehension skill at the same time broadening their horizons.

Tasks;

- 1. Newspaper Collage** - Take old newspapers, cut out pictures, headlines and articles and glue them onto a poster board to create a newspaper collage. This will help students to improve their visual literacy skills.
- 2. Noun chart** - Cut out pictures from old newspapers or magazines of different 30 nouns . Segregate them in place, person or thing and glue them on a big board to make a noun chart.
- 3. My own Newspaper** - Create your own newspaper depicting your all summer activities. Choose a catchy and creative name for your newspaper. Divide in different sections might include: local events, outdoor activities, indoor learnings, food mania, sports and travel. Add photos and graphics with creative captions.
- 4. Bulletin Boss:** Create a video while reading 5 news headlines from a news paper like an smart anchor from daily student news channel, HHS.

Mathematics

1. Write counting 1 to 100 (3 times) in 3 in one notebook..

2. **3D Shape model -**

Understanding mathematical concepts can be fun when students explore and visualize the concept. a 3D shape model will be a helpful tool for better understanding the concept shape. It will be hands-on learning, when learners use, interact and manipulate physical 3D shapes. Learners can make connections with real life and develop their higher order thinking skills. They will visualize things better and understand the concept more clearly. Learners can make different 3d shapes using soft cardboard, clay or take real things of different shapes. Manipulate them according to their choice and create a scene or model according to their choice.

3. **CountWise - Count wisely using Abacus model**

The abacus is an ancient counting device that was used for performing mathematical calculations before the invention of modern electronic calculators. It is a valuable tool for teaching mathematical concepts to young children and for improving mental arithmetic skills. Creating an abacus model can be a great way to introduce children to the concept of counting and basic arithmetic operations, such as addition and subtraction. By physically moving beads along the abacus rods, children can see the relationship between numbers and learn to visualize mathematical concepts in a concrete way.

4. **Name Lines Math Challenge -**

Understanding the concept becomes fun when it moves around us. Its a math challenge to write your name using matchsticks. Students will write their name and make a table of the number of horizontal (sleeping), diagonal (slanting) and Vertical (standing) lines in their name on A3 size sheet and decorate it beautifully.

Reference: Let's start with the first letter of your name. If your name starts with a "C", for example, we can draw a sleeping line first, followed by a standing line that intersects the middle of the sleeping line. This gives us a shape that looks like a capital "T". We can then add a small horizontal line at the top of the sleeping line to complete the letter "C".

For the second letter, let's say it's an "A". We can start by drawing a standing line, followed by two diagonal lines that connect to a sleeping line. This gives us a shape that looks like an inverted "V". We can then add a horizontal line at the bottom of the sleeping line to complete the letter "A". And that's it! You can continue with the rest of your name using these same techniques.

5. **Warli Art:** Warli art is a traditional art form that originated in the Warli tribe of Maharashtra, India. This art form uses geometric shapes and patterns to create beautiful images that depict the everyday life and culture of the Warli people. Warli art uses basic shapes such as circles, triangles, squares, and rectangles to create complex images, and this can help students see how different shapes can be combined to create more complex shapes

3. <https://www.youtube.com/watch?v=mE2FkQjFbXM>

6. **Maths Necklace** - Ganit mala or math necklace is a type of necklace made with mathematical beads, usually used to learn math concepts in a fun and interactive way. To make a ganit mala or math necklace, you will need Beads (colored beads for numbers, and different shaped beads for mathematical symbols), String or thread.

7. Alligator Faces: Create alligator faces for comparing numbers

Purpose : They will be used in classroom learning

EVS

1. Show and talk about :

Students will make Flashcards on the given topics

- 6 Festivals of India (Roll No 1-4)
- 4 places of Worship(Roll No 5-8)
- 5 seasons (Roll No 9-12)
- 6 Things we get from plants (Roll No 13-16)
- 6 Things we get from animals (Roll No 17-20)
- Means of transport - Air, Water, Land (3 each) (Roll No 21-24)
- Means of communication- Personal and Mass communication- (3 each) (Roll No 25 onwards)

2. Seasonal Wonders

Seasonal crafts can be a fun and engaging way to learn about the four seasons and the unique characteristics of each one. It is one of the ways to enhance creativity and imagination at the same time reinforce concepts. Creating seasonal crafts allows students to engage in hands-on learning, which can be particularly effective for younger students who learn best through tactile experiences.

Reference:

3. Transportation map

Creating transportation maps is a great craft activity for primary school students to develop spatial awareness, such as the relative locations of landmarks, distance between them and usage of modes of transportation. It will improve their motor skills, encourage creativity and imagination. Craft your own transportation map of your city or town, including landmarks like parks, schools or stores, draw different routes for each mode of transportation. For example, draw a red line for the bus route and a blue line for the train route. Cut out pictures or model of different modes of transportation and place them onto the map to show where they are located in the city or town.

4. Green Genius

Developing projects can be fun and engaging activity that helps students learn about the environment and develop their skills. It will encourage curiosity and exploration about the environment. It will develop their awareness and understanding of the environment by studying topics like plants, animals and natural resources. Students can learn how to protect the environment and make sustainable and better choices.

- 1. Miniature Garden: Making a miniature garden can be a fun and creative activity that allows child to express themselves and create a tiny world of their own. It can also be a relaxing and meditative process that helps to reduce stress and anxiety. Create a miniature garden in a Carton box or a small container, using real plants and materials.**
- 2. Rainwater Harvesting Model: Create a model of a rainwater harvesting system using materials such as transparent containers, pipes, and hoses. Children will learn about the importance of conserving water and the benefits of using rainwater for gardening and other household uses.**
- 3. Air Pollution Filter: Build a simple air pollution filter using materials such as a plastic bottle, cotton balls, and charcoal. Children can learn about the causes and effects of air pollution and how to reduce their carbon footprint.**
- 4. Composting Model: Teach children about the importance of composting and recycling organic waste by creating a mini-composting model. You can use a plastic container or a cardboard box to create the model.**
- 5. Terrarium Model Making a terrarium model can be a fun and creative way to bring a little bit of nature into home and life . Choose a transparent container add some gravel or rocks, little bit of activated charcoal, add layer of potting soil. Add some plants like ferns , mosses etc. Arrange the plants in the soil, making sure to leave enough space for them to grow. Add decorative element like rocks or pebbles. Mist the terrarium, using a spray bottle and Finally close the lid.**

Best out of waste

Making a project on best out waste is our true contribution towards our sustainable development goal. It is a cost effective alternative to purchasing new items. It reduces the amount of waste that goes into landfills. This is an effective and fun engaging activity to promote creativity .. It encourages individuals to think outside the box and come up with unique ideas. By using waste waste materials create something new to promote creativity and innovation. Take help from the reference given below and make it your own.

3 Sunshine Supporters:

Values are fundamental principles that guide our behaviors and decision-making. They are essential for building a strong character and developing a sense of morality. Summer vacation can provide a great opportunity for personal growth and self-reflection. Practicing values such as honesty, integrity, compassion, and empathy can help the child to become a better person and strengthen character. Learn values by doing small act of kindness like watering plants, feeding birds, helping elders and stray animals capture the moment and frame it beautifully.

Reference for frames:

Dad's Delicious Dishes

Making a sandwich with your father is a great way to celebrate Father's Day and spend some quality time together.

Choose the sandwich: Decide on a sandwich that you and your father would like to make together. You could either pick your dad's favorite sandwich or try something new and exciting. Get the ingredients Set up the workspace: Clear a space in the kitchen and gather all the necessary tools, such as knives, cutting boards, and sandwich spreaders. Make the sandwich: Work together to prepare the ingredients and assemble the sandwich. Discuss your dad's tips or tricks for making the perfect sandwich. Enjoy the sandwich: Once the sandwich is ready, sit down with your father and enjoy your creation. Take snapshots of these beautiful moments in the form of videos and photos and upload on google classroom.

Soulful Stretch Yoga

Introducing yoga in primary grades can be impactful as it helps children develop a range of physical, mental, and emotional skills that can positively influence their growth and development. Through regular practice, children can enhance their physical fitness, flexibility, balance, and coordination, while also improving their concentration, focus, and mindfulness. Additionally, yoga can help children manage stress, anxiety, and other emotional challenges that may arise during the primary school years. Practice A to Z poses of yoga, capture the moments and upload in
